

AndeSight™ STD v3.2 Installation Guide in Windows

1. Minimum system requirements

(1). Hardware requirements

RAM: 2 GB

Disk storage: 13 GB for installation on Windows

(2). Operating systems

Microsoft Windows 7 Professional (both 32 bit and 64-bit version)

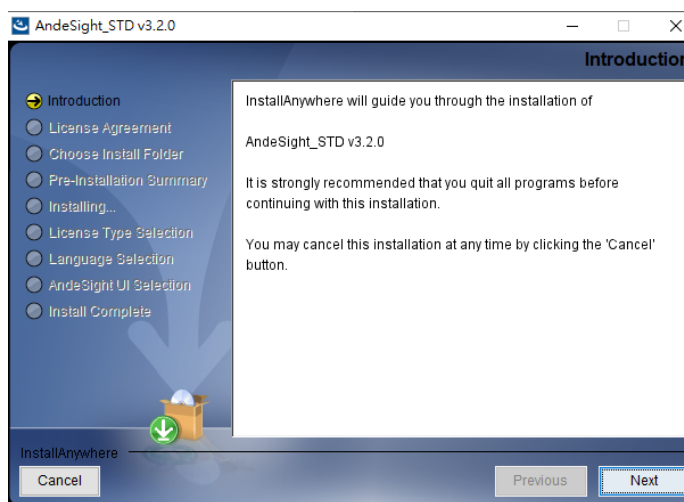

Microsoft Windows 10 (64-bit version)

2. Installation

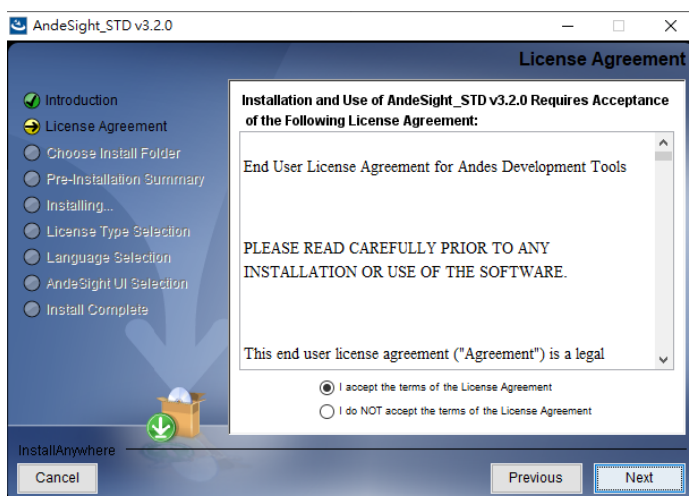

(1). To install AndeSight STD v3.2 on Windows, first unzip the zip file and find the installer Setup.exe under the directory

AndeSight_STD_v3.2.0\Windows\Disk1 and double-click it.

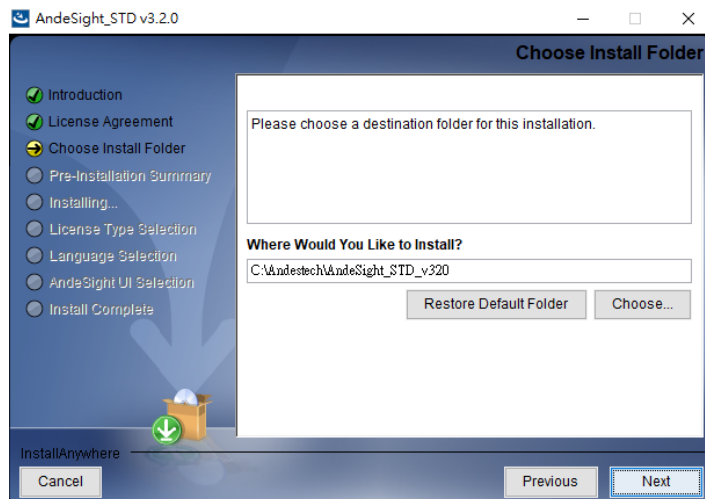

(2). Click “Next”

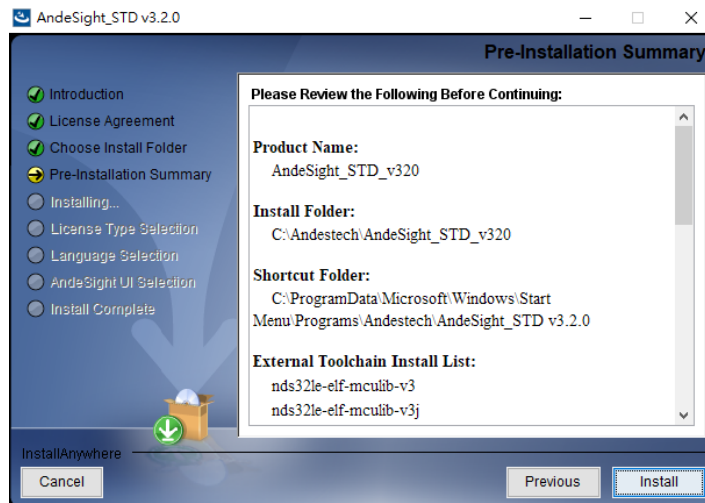

(3). Select “I accept the terms of the License Agreement”. Click “Next”.

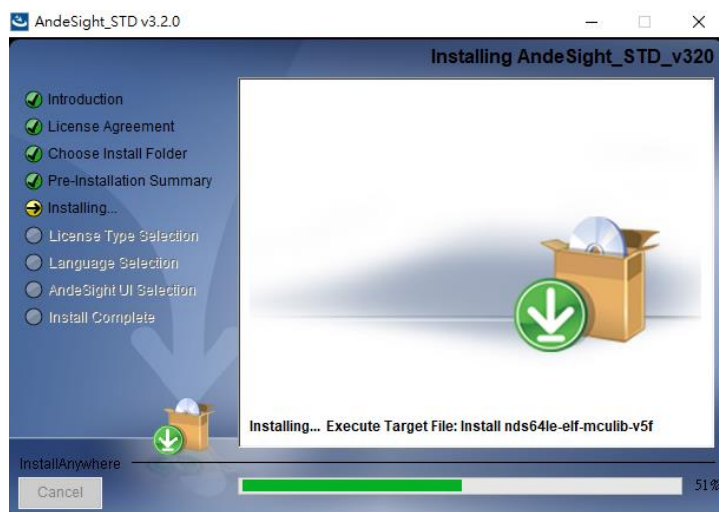

(4). Use the default installation directory. Click “Next”.

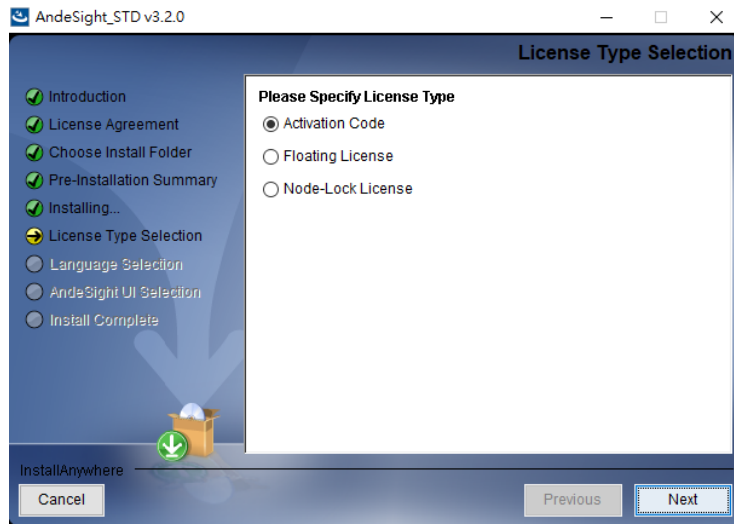

(5). Click “Install” to commence the installation.

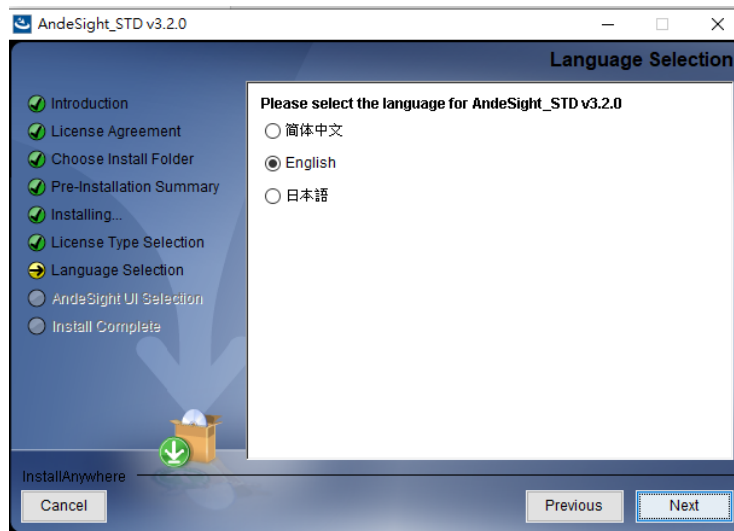

(6). Wait for the installation to complete...

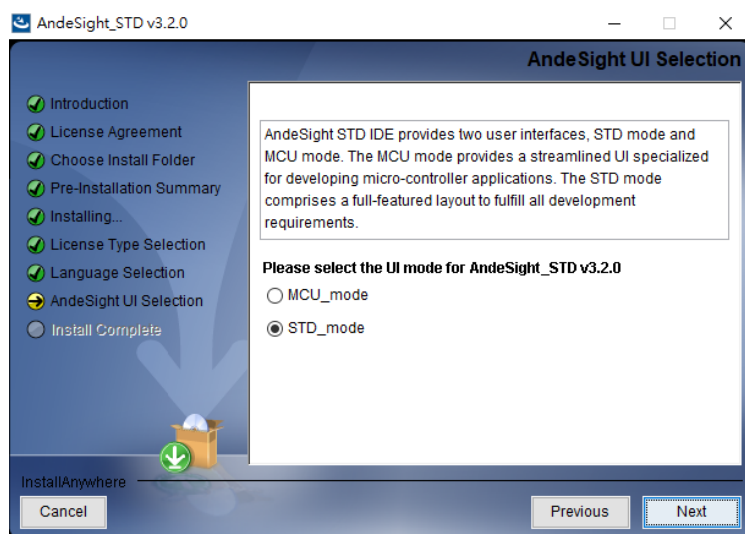

(7). Select “Activation Code”. Click “Next”

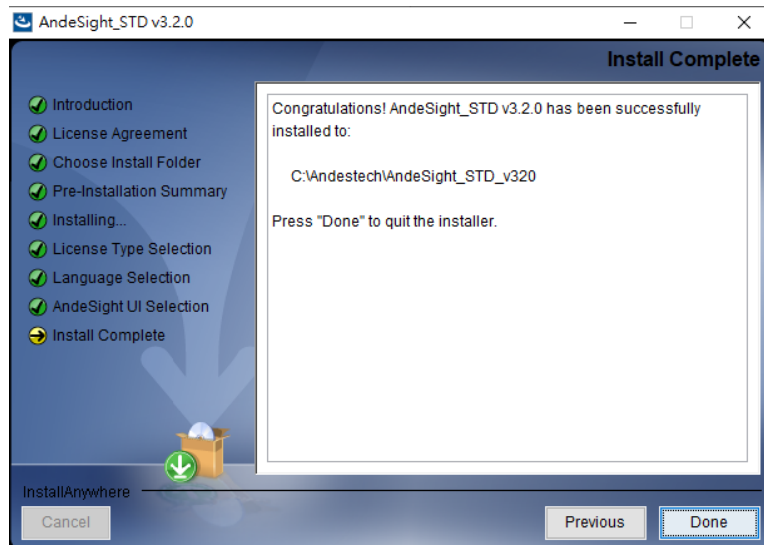

(8). Select a display language and click “Next.”

(9). Select “STD_mode” and click “Next”

(10). Click “Done” to complete the installation process.

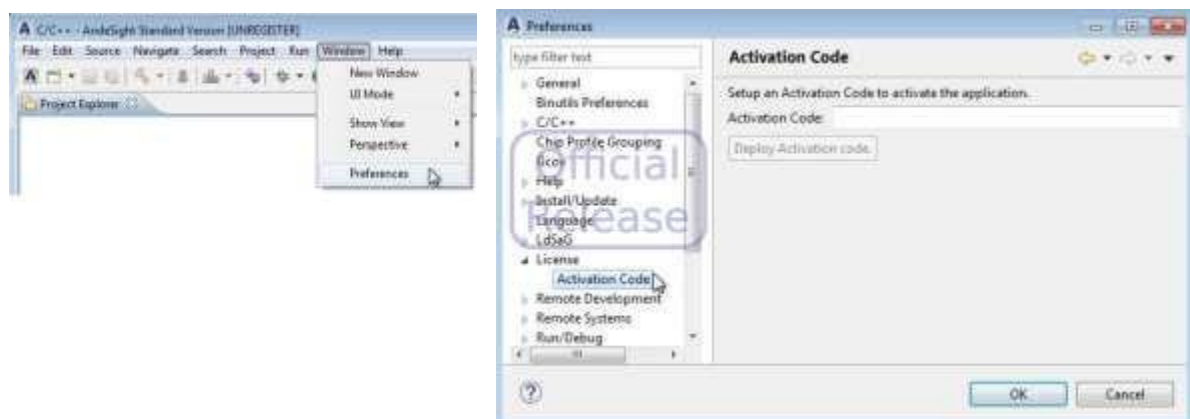

3. License activation

(1). Execute AndeSight. A License dialog pops out to remind you that no license is installed yet. Click the “Install now ...” button on the dialog to invoke the page that allows you to input the activation code.

(2). You can also click “Windows > Preferences” on the AndeSight main menu to invoke the Preferences dialog and then click “License > Activation Code” on the navigation pane to access this page.

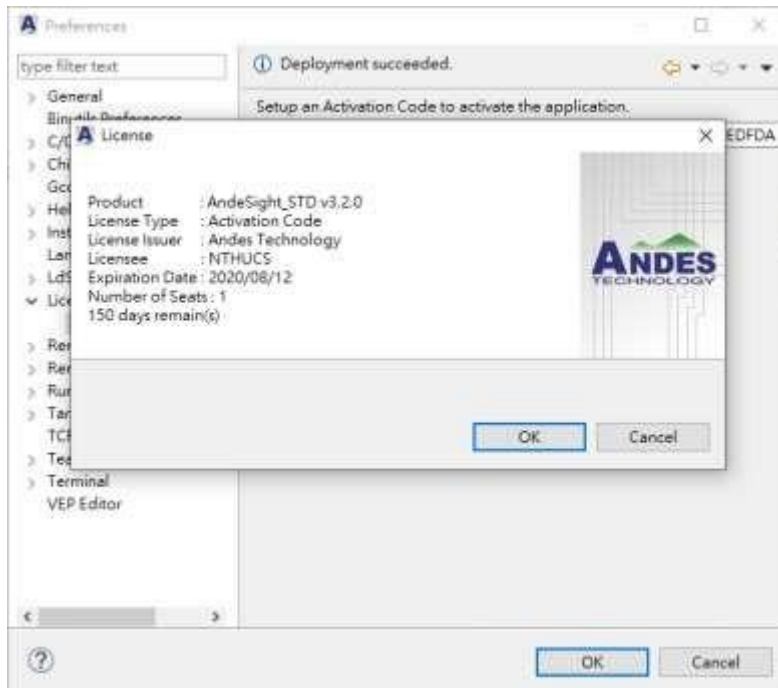

(3). Enter a valid activation code. Then, click “Deploy Activation code” Button.

The activation code is only for student who is taking Computer Architecture course in NTHU.

Activation code:

79B5D4C897255DD5ED17693BE7A802DBC0C24B8342A56DAC0B601DAAFEFEFA78F

(4). Click “OK” to complete the license activation.
